

jQuery FOR WEB DESIGNERS

R1700.00

**jQuery DEVELOPMENT
THE PRACTICAL WAY**

COURSE OVERVIEW

Our **jQuery course** is aimed at web designers wanting to **learn jQuery the practical way**. The jQuery course is for Web Designers that want to take their websites to the next level by adding additional functionality like tabs, image sliders, accordians etc.

We will start learning the **basics of jQuery**, what you can do with it and how to do it. **jQuery** is a very well sought after skill in the web design industry and we put together a **course for web designers** that has no experience in writing any JavaScript. If you understand CSS and the way it works then this course would be a great addition to your skill-set.

WHO IS THIS COURSE FOR?

Any web designer that wants to take their web design skills to a higher level. Web designers that want to finally learn the **power behind jQuery**.

WHAT YOU WILL LEARN

- Introduction
- What is jQuery
- jQuery Syntax
- Functions
- Selectors
- Moving through The Dom
- Events
- Animation
- Dynamic Features
- jQuery Bonus
- jQuery UI
- jQuery Mobile
- Final Discussion

ASSUMED KNOWLEDGE

For this **jQuery Course** we will assume you have a working knowledge of **HTML and CSS**. If you understand CSS selectors this course will be great for you. You should have a basic working knowledge of either a Windows or Mac operating system.

COURSE MATERIAL

We typically supply detailed course notes or a reference text, or in some cases both. We provide sufficient supporting material so that you can return to your work place with sufficient confidence to permit further learning. We also supply all source code and a great collection of digital web design books. 90 days unlimited support by phone or email. You also get lifetime support through our Resource Center.
